Alligator® Solid Wall Anchor Kit

The Alligator anchor is the only anchor that extrudes the entire length of the screw.

The screw extrudes and compresses all the plastic into the wall of the hole under tremendous pressure. The plastic molds and conforms exactly to the surface of the hole (including all the hole's imperfections). All forces supported by the screw are transmitted around the anchor to the wall of the hole. This provides greater holding power by distributing the force over the maximum area possible.

- Alligator® solid-wall anchors can be used in most any material, including: Concrete, Wood, Plaster, Aerated Concrete, Block, Masonry, Stone, Flakeboard, Cinder Block, Ceramic Tile, Stucco, and Drywall.
- Alligator® solid-wall anchors are designed to support heavy loads. (Even under vibration!)

PART #	UPC #	DESCRIPTION	QTY / PKG	SUG. TRADE LIST / PKG
		3/16 Alligator Solid-Wall Anchor with Flange	20	
		#8 x 1" Pan Head Combo Sheet Metal Screw	20	
		3/16 x 4" Masonry Drill Bit	1
